

## Technology kit For Minilift S, underground KTP300

## Article information

Item no.: 280570-TK GTIN: 4026092108086 Price group: 20

## Description

For combination with a KESSEL shell kit for creating a Minilift S small lifting station for wastewater without sewage.

The ready to plug in small lifting station for wastewater without sewage is suitable for the disposal of wastewater from individual drainage sources. The submersible pump with float switch can be removed easily with the help of one-handed closures. The collection tank made of polymer (PE) has an open pump tank and is resistant to aggressive wastewater. The system for installation in the floor slab is pre-assembled for final installation on site.

## KESSEL technology kit consisting of:

- Pump with multi-vane vortex impeller for maximum operating safety
- Includes float switch for level measurement

Variant	
Type of system:	Single unit
Pump control:	Float switch
Backflow preventer:	integrated
General characteristics	
ATEX:	no
Dimensions	
Net weight:	4,21 kg
Gross weight:	4,49 kg
Packaging dimension:	length
Packaging dimension:	width
Packaging dimension:	height
Pumping device	
Pump:	KTP 300

Number of pumps: 1 4 kg Weight, pump: Schuko (earthed contact) 2-pin Connection type: Rated current: 1,6 A Protection class: L F Insulation class: IP 68 (3m) Protection class (pump): Temperature monitoring: integrated Max. temperature (permanent) of conveyed 40 °C material: Max. pumping capacity: 8 m³/h Max. pumping height: 6 m 2800 U/min Speed: Power P1: 0,34 kW Power P2: 0.21 kW Operating mode: S1 Type of fuse required (electrical protection): C 16 A Type of pump connection cable: H07RN-F 3G 1.5 mm<sup>2</sup> Impeller type: Multi-vane impeller Length of mains cable for pump: 5 m Control Mains frequency: 50 Hz 230 V Operating voltage: Connection type:

Schuko (earthed contact) 2-pin 1,6 A Type of fuse required (electrical protection): C 16 A

Rated current:
