

Pumping station Aquapump Medium Mono, STZ 1000, 1800-2250 mm, A

Article information

Item no.: 827730A GTIN: 4026092077719 Price group: 60

Advantages

- height-adjustable upper section
- Preconfigured in the factory
- LW 600 chamber system suitable for underground installation

Description

The pumping station with sewage wastewater is equipped with one or two submersible pumps and a backflow preventer. The collection tank is an LW 600 chamber system made of permanently resistant polymer (PE-LLD) with open pump tank and universal connection options. Quick-release closures enable the integrated components to be removed easily.

| Variant Type of system: Passage seal for conduit pipe (DN): Access steps: Passage seal for ventilation pipe (DN): Installation: Pump control: Backflow preventer: Pressure pipe connection: Chamber system: | Single unit 100 no 100 Wet installation Float switch integrated horizontal LW 600 |
